FEATURES

- Can be operated manually; quickly and easily at any height
- Automatically disengages when hoist is lowered to the ground.
- 'Standard' on current Molnar Two Post Hoists, can be retro-fitted to older Molnar Two Post hoists
- Automation saves time
- No back bending
- Allows wider arm opening for easier drive in access
- Height adjustable for sloping or uneven floors
- 'Shielded' internal mechanism
- Laser cut teeth deliver superior strength through a large cross sectional area

As the policy of Molnar Hoists is one of continuous improvement, the manufacturer reserves the right to change specifications without notice.
